

Academic Integrity

Discussions among the students on the course subject and project designs are strongly encouraged. However, all written and programming assignments must be completed independently. Copying from one another is strictly prohibited. Individuals who break this rule (both those copying and those providing the work for copying) for the first time will receive zero point for the particular assignment or for the entire course, depending on the severity of the offense. A second offense will automatically result in a failing grade for the entire course.

I have read the policy stated above and agree to abide to the policy.
