# Computer Science Women's Network

---

{ Hi! I'm Sasha Kipnis }

# Who we are and what we do

---

- Support for women in CS
- Exclusive opportunities for networking with companies
- Socials and bonding
- Partnership with companies

# Why this movement is important

---

- Women are intimidated in a male dominated field
- Women are missing out on opportunities they are extremely qualified for
- Mentorship and support is an effective way to give

confidence to women pursuing CS

# 172 Members

Including eleven officers

# Company Events

Members get 1-on-1 facetime with recruiters and engineers in a relaxed environment throughout the semester

# Women in Tech Panel

---

- In February
- Professionals from different tech companies talk about their experiences in their fields
- Answer audience questions
- Need female engineers
  - o Answer questions
  - o Serve as role models

# Puzzle Day

---

- In April
- Solve challenging puzzles with your friends for fun and prizes!
- Need sponsorship to put on this event
  - o Prizes
  - o Puzzles

# Questions?
