

COMPUTER SCIENCE WOMEN'S NETWORK

Corporate Partner's Meeting Spring 2015

The Core of CSWN

- **Create** a social foundation for women in CS at Purdue
- **Extend** and **enhance** the networking opportunities for our members
- **Educate** on the importance of women in STEM

In the past....

- Focused on networking and opportunities
 - Held events mainly with companies
 - No call outs
 - No consistent member meetings
 - Little outreach to non-Purdue CS women

Steps towards growth

- Socials focused on building a community for the girls of CS
- Microsoft Hackathon to present ways to learn and new opportunities

YEAR 2015-2016

Women here now

- Biweekly social gatherings to build relationships with each other
- Office hours during the week

Women who just arrived

- Group coding/study sessions for anyone who wants to come and code together
- Holding callouts at the beginning of the semester
- Getting started earlier
- Having information readily available

Women who aren't here yet

- More emphasis on outreach to the younger women (middle school aged) instead of high school
- Having a representative available during high school tours of Lawson
