

The **Department of Computer Science at Purdue University** seeks multiple Postdoctoral Research Associates with [Prof. Aniket Bera](#).

The positions come with:

1. High flexibility in the research agenda, including but not limited to computer graphics, robotics, behavior/motion/affect modeling, multi-agent modeling/simulation, AR/VR, and generative deep learning models.
2. Competitive funding, compensation and benefits.
3. Access to work with our awesome Ph.D. students and star undergrads.
4. Work with Social Psychology, Neuroscience, and Psychiatry researchers in addition to researchers in Engineering (ECE, ME).
5. Significant freedom to create a research agenda within the scope of the lab.
6. Close mentoring/guidance on grant writing and student advising.
7. Undergraduate and Graduate Teaching opportunities.
8. Collaborations with our several outstanding professors in the department.
9. Several ongoing inter-university and federal agency collaborations.

The ideal candidate has a Ph.D. in **CS/ECE/EE** on a topic related to computer graphics, AR/VR, multi-agent modeling/simulation, robotics, affective computing, or a related AI/ML area. The positions are expected to last one to two years and can start in **Fall 2022** (the start date is flexible).

To apply, please submit a CV/resume, a research statement, and a list of 3 professional references with their full contact information. A cover letter is optional. For inquiries about this position, please email **Prof. Bera (ab@cs.purdue.edu)** with the subject line “*Postdoc Application -- Name*”.
