Datasets

- Protein-Protein interactions
  - Extract physical interactions from BioGRID database
  - Binary data (no reliability score)
- Domain-Domain interactions
  - DOMINE database
  - Confidence score used to split dataset
  - **Struct**: Only structure based interactions
  - **HC+NA** : High Confidence (HC) and Structure based interactions
  - **HC+MC** : High Confidence (HC) and Medium Confidence (MC) interactions
  - **Comp-2**: Interactions predicted by at least two computational approaches
  - **Comp-1**: Interactions predicted by at least one computational approach
