

Incremental and Regression Testing Grading Rubric

Due: Friday, September 26, 2014 at 11:59 PM

1. Define all Components (1 point)
 - a. Include diagrams to explain various components of the project. Show how each component interacts with other components
2. State which form of incremental testing you chose to follow (top-down or bottom-up) and explain (0.5 points)
3. For each component, list expected input, output, and any dependent components (1 point)
4. Incremental Testing (2.5 points)

For each defect found by Incremental Testing, please include:

 - a. Component that the defect belongs to
 - b. Defect number
 - c. Description of the defect
 - d. Severity of the defect
 - e. How the defect was corrected
5. Regression Testing (2.5 points)

For each defect found by Regression Testing, please include:

 - a. Component that the defect belongs to
 - b. Defect number
 - c. Description of the defect
 - d. Severity of the defect
 - e. How the defect was corrected

Note: All assignments should include team number, member names, and a project title on the front page.

Late submissions will result in a deduction of 20% on the assignment.

Please submit the assignment as a PDF on Blackboard. As well, add it to your private repository. For questions, please contact your Project Coordinator or the Head TA.

Total Points: 7.5 (7.5% of your project grade)
