

- 11.13** Suppose an OC-12 circuit is twenty percent the cost of an OC-48 circuit. What multiplexing technology can an ISP use to lower the cost of sending data at the OC-48 rate? Explain.
- 11.14** Search the Web to find the length of a chip sequence used in CDMA phone systems.
- 11.15** Of the four basic multiplexing techniques, is CDM always the best? Explain.
