

Tiark Rompf

Lawson CS Building, 305 N. University Street, West Lafayette, IN-47907 USA
tiark@purdue.edu, tiarkrompf.github.io, +1 (765) 49-49027

January 1, 2020

Research

Applied and fundamental aspects of programming languages and compilers: language design, program analysis, program transformation, program generation and synthesis, type systems, semantics. PL technology in data management, machine learning, and AI.

Education

- **EPFL, Lausanne, Switzerland**
PhD, Computer Science (Advisor: Martin Odersky) **2012**
- **Universität zu Lübeck, Germany**
MSc (“Dipl. Inf.”), Computer Science/Medical Informatics **2008**
- **Universität Bremen, Germany**
BSc (“Vordiplom”), Computer Science **2003**

Experience

- **Purdue Center for Programming Principles and Software Systems (PurPL):** **2019 - now**
Co-Founder and Co-Director
- **SambaNova Systems:** Scientific Advisor **2018 - now**
- **Purdue University:** Assistant Professor (Tenure Track), Computer Science **2014 - now**
- **Oracle Labs:** Principal Member of Technical Staff **2012 - 2014**
- **EPFL:** Post-Doctoral Researcher **2012 - 2014**
- **Typesafe:** Technical Advisor **2010 - 2012**
- **EPFL:** Research Assistant and PhD Candidate **2008 - 2012**
- **R&S Medizinsysteme:** Co-Founder **2004 - 2010**
- **Nachtlicht-Media:** Co-Founder **2000 - 2006**

Awards and Distinctions

- ACM SIGPLAN Programming Languages Software Award (Scala team) **2019**
- Facebook Probability and Programming Research Award **2019**
- Purdue College of Science Team Award **2019, 2020**
- VMware Systems Research Award **2018**
- Purdue College of Science Professional Achievement Award **2017**
- DOE Early Career Award **2017**
- Google Faculty Research Award **2017, 2018**
- NSF CAREER Award **2016**
- OOPSLA Distinguished Artifact Award **2016**

- GPCE Invited Keynote Speaker 2016
- Member of IFIP Working Group 2.11: Program Generation 2015
- VLDB Best Paper Award 2014
- Nominated for EPFL and SIGPLAN dissertation awards 2012
- CACM research highlight 2011
- EPFL PhD fellowship 2008

Professional Leadership and Service

Conference Organization

1. PurPL Fest & Midwest PL Summit 2019 (co-chair): Kick-off symposium for new PurPL center
2. GPCE 2018 (PC chair): Conference on Generative Programming: Concepts & Experiences
3. NII Shonan Meeting #113 (co-organizer): Meta-Programming for Statistical Machine Learning
4. DBPL 2017 (PC co-chair): Symposium on Database Programming Languages
5. PLDI 2016 (Sponsorship Chair): Conf. on Programming Language Design and Implementation
6. PEPM 2016 (PC co-chair): Workshop on Partial Evaluation and Program Manipulation
7. Summer School on Domain-Specific Languages 2015 (held at EPFL, co-organizer)
8. Midwest PL Summit 2015 (held at Purdue, first event of a series, lead organizer)
9. FHPC 2015 (PC co-chair): Workshop on Functional High-Performance Computing
10. WGP 2014 (PC co-chair): Workshop on Generic Programming
11. DSLDI 2013 (co-organizer): Workshop on Domain-Specific Languages Design and Impl.
12. JufoCongress 2003 & 2006 (co-organizer): Deutscher JungforscherCongress (German young researchers congress)

Program Committees

1. ICFP 2020 (ERC): International Conference on Functional Programming
2. ECOOP 2020 (ERC): European Conference on Object-Oriented Programming
3. PLDI 2020 (ERC): Conference on Programming Language Design and Implementation
4. POPL 2020: Symposium on Principles of Programming Languages
5. DBPL 2019: Symposium on Database Programming Languages
6. ICFP 2019 (ERC): International Conference on Functional Programming
7. OOPSLA 2019: Conference on Object-Oriented Programming Languages and Systems
8. CC 2019: Conference on Compiler Construction
9. OOPSLA 2018 (ERC): Conference on Object-Oriented Programming Languages and Systems
10. VLDB 2018: Conference on Very Large Data Bases
11. PLDI 2018: Conference on Programming Language Design and Implementation
12. PEPM 2018: Workshop on Partial Evaluation and Program Manipulation

13. TFP 2018: Symposium on Trends in Functional Programming
14. ManLang 2018: Conference on Managed Languages & Runtimes
15. CADO 2018: HPCS Special Session on Compiler Architecture, Design and Optimization
16. DBTest 2018: Workshop on Testing Database Systems
17. GPCE 2017: Conference on Generative Programming: Concepts & Experiences
18. ECOOP 2017: European Conference on Object-Oriented Programming
19. META 2017: Workshop on Meta-Programming Techniques and Reflection
20. ManLang 2017: Conference on Managed Languages & Runtimes
21. Active 2017: Workshop on Data Management on Virtualized Active Systems
22. MoreVMs 2017: Workshop on Modern Language Runtimes, Ecosystems, and VMs
23. ICFP 2016 (ERC): Conference on Functional Programming
24. GPCE 2016: Conference on Generative Programming: Concepts & Experiences
25. DSLDI 2016: Workshop on Domain Specific Language Design and Implementation
26. ICOOLPS 2016: Workshop on Implementation, Compilation, Optimization of Object-Oriented Languages, Programs and Systems
27. POPL 2016: Symposium on Principles of Programming Languages
28. OOPSLA 2015: Conference on Object-Oriented Programming Languages and Systems
29. SCALA 2015: Symposium on the Scala Programming Language
30. GPCE 2015: Conference on Generative Programming: Concepts & Experiences
31. HLPP 2015: Symposium on High-level Parallel Programming and Applications
32. WOC 2015: Workshop on Continuations
33. PLDI 2015: Conference on Programming Language Design and Implementation
34. DSLDI 2014: Workshop on Domain Specific Language Design and Implementation
35. ICFP 2014: International Conference on Functional Programming
36. GPCE 2014: Conference on Generative Programming: Concepts & Experiences
37. PPDP 2014: Symposium on Principles and Practice of Declarative Programming
38. FHPC 2014: Workshop on Functional High-Performance Computing
39. HLPP 2014: Symposium on High-level Parallel Programming and Applications
40. HART 2014: Workshop on Haskell and Rewriting Techniques
41. PEPM 2014: Workshop on Partial Evaluation and Program Manipulation
42. WGP 2013: Workshop on Generic Programming
43. CW 2011: Continuation Workshop

Publications

Google Scholar (as of Jan. 1, 2020):

- Citation count: 3028
- H-index: 30

csrankings.org:

- Ranked 3rd among PL researchers in the US for the past 6 years:
- 15 publications 2014-2019 in “top” PL conferences (POPL, PLDI, OOPSLA, ICFP), behind Alex Aiken (Stanford, 16) and Isil Dillig (UT Austin, 20)
- Does not include 5 “top” non-PL papers in 2014-2019 (MICRO, VLDB, SIGMOD, OSDI, NeurIPS)

Note: ^P denotes author who is postdoctoral researcher (or on other pre-faculty position) *at the time of writing*. Similarly, ^U and ^G indicate authors who were undergraduate and graduate students respectively *at the time of writing*. Acceptance rates are shown where available.

Theses

- [1] Tiark Rompf^G. Lightweight Modular Staging and Embedded Compilers: Abstraction Without Regret for High-Level High-Performance Programming. PhD Thesis, LAMP, EPFL, 2012
- [2] Tiark Rompf^U. Design and Implementation of a Programming Language for Concurrent Interactive Systems. Master Thesis, Institute of Software Technology and Programming Languages, University of Lübeck, 2007

Presentations

Invited Talks

1. A Programming Language and Compiler View on Data Management and ML Systems. Data Engineering Lecture Series, Hasso Plattner Institute, Potsdam, 2020
2. A Programming Language and Compiler View on Data Management and ML Systems. UIUC, Urbana-Champaign, 2019
3. Flare & Lantern: accelerators for Big Data and Deep Learning. NII Shonan Meeting 143 on Programming Language Support for Data-intensive Applications, 2019
4. A Programming Language and Compiler View on AI Systems. C4ML Workshop, Washington DC, 2019
5. Native Compilation as Query Accelerator. SAP HANA Tech Days, Galveston, 2018

6. Demystifying Differentiable Programming. IFIP Working Group 2.11, 18th Meeting, Kyoto University, 2018
7. What Programming Languages Research has to Offer for AI and Vice-Versa. Google DeepMind, London, 2018
8. What Programming Languages Research has to Offer for Big Data and AI. Huawei Midwest Research Summit: Artificial Intelligence, Champaign, 2018
9. Building efficient query engines in a high-level language. SAP HANA Tech Days, Munich, 2017
10. How types can turn a SQL interpreter into a SQL compiler: Building efficient query engines in a high-level language. NII Shonan Meeting 98 on Language integrated queries: towards standard logics for big data analytics, 2017
11. LMS: Generate all the things! GPCE'16 Keynote, Amsterdam, 2016
12. Adding SQL to the mix: faster queries in multi-paradigm DSL applications. NSF sponsored Workshop on Architecture and Software for Emerging Applications (WASEA), Haifa, Israel, 2016
13. LMS-Verify: Abstraction with Regret for Verified Systems Programming. IFIP Working Group 2.11, 16th Meeting, IU Bloomington, 2016
14. DSLs in Scala. Summer School on Domain-Specific Languages, EPFL, Switzerland, 2015
15. A SQL to C compiler in 500 lines of Scala. IFIP Working Group 2.11, 14th Meeting, University of Stellenbosch, South Africa, 2015
16. Abstraction Without Regret for High-Level High-Performance Programming. Professor's Day, Huawei Research, Moscow, 2014
17. A SQL to C compiler in 500 lines of code. Dagstuhl Seminar 14511 Programming Languages for Big Data (PlanBig), 2014
18. Dagstuhl Seminar 14271 on Scripting Languages and Frameworks: Analysis and Verification, 2014
19. Staging with Scala, LMS and Delite (LMS 5 years later). NII Shonan Meeting 2014-7 on Staging and High-Performance Computing: Theory and Practice, 2014
20. Abstraction Without Regret for High-Level High-Performance Programming. Purdue University, 2014
21. Staging for Database Systems: From Query Interpreters to Query Compilers. IFIP Working Group 2.11, 13th Meeting, CMU, 2014
22. Lightweight Modular Staging in Scala. The Future of Programming Symposium, TU Delft, 2014
23. Scala, LMS and Delite: Big Data on Heterogeneous Architectures. NSF DALI Workshop on Dynamic Languages for Scalable Data Analytics, Indianapolis, 2013
24. Surgical Precision JIT Compilers. Splash-I, Indianapolis, 2013
25. DSLs for Parallelism: Problems, Solutions and Open Issues. LaME Workshop on Languages for the Multicore Era, Montpellier, 2013
26. Project Lancet: Surgical Precision JIT Compilers. IFIP Working Group 2.11, 12th Meeting, University of Minnesota, 2013
27. Big Data in Industry (Panel Discussion). XLDB Europe Workshop, CERN, 2013
28. Abstraction Without Regret: Can we Bridge the Productivity vs Performance Gap in Software Development? ETH Zürich, 2013
29. High-Performance Embedded DSLs in Scala. RAWFP Workshop on Productivity and Performance through Resource Aware Functional Programming, Chalmers University, 2012
30. High-Performance Embedded DSLs with Delite. NII Shonan Meeting 2012-4 on Bridging the Theory of Staged Programming Languages and the Practice of High-Performance Computing, 2012

Conference Tutorials

1. Tiark Rompf, Kunle Olukotun, Markus Püschel (organizers). Scala, LMS and Delite for High-Performance DSLs and Program Generators. PLDI 2017
2. Tiark Rompf, Kunle Olukotun, Markus Püschel (organizers). Scala, LMS and Delite for High-Performance DSLs and Program Generators. CGO 2015
3. Tiark Rompf, Sandro Stucki, Manohar Jonnalagedda. Batteries Included: Generative Programming with Scala and LMS. SPLASH 2014 Fall School
4. Tiark Rompf, Nada Amin. Batteries Included: Generative Programming with Scala and LMS. CUFPP 2014
5. Tiark Rompf, Kunle Olukotun, Markus Püschel (organizers). Scala, LMS and Delite for High-Performance DSLs and Program Generators. PLDI 2013
6. Tiark Rompf, Arvind K. Sujeeth. Scala, LMS and Delite for High-Performance DSLs and Program Generators. ECOOP 2013 Summer School

Selected Other Talks

1. Flare & Lantern: Accelerators for Spark and Deep Learning. ScalaDays, Lausanne, 2019
2. Flare and TensorFlare: Native Compilation for Spark and TensorFlow Pipelines. Spark+AI Summit, San Francisco, 2018
3. How types can turn a SQL interpreter into a SQL compiler. Curry On!, Barcelona, 2017
4. Flare: Scale up Spark SQL with native compilation and set your data on fire! Spark Summit West, San Francisco, 2017
5. Flare: Scale up Spark SQL with native compilation and set your data on fire! Scala Days, Chicago, 2017
6. Flare: Scale up Spark SQL with native compilation and set your data on fire! Spark Summit EU, Brussels, 2016
7. How types can turn a SQL interpreter into a SQL compiler: Building efficient query engines in a high-level language. Strangeloop, St. Louis, 2014
8. Implicits in Scala. ML Family Workshop 2014, Gothenburg 2014. With Nada Amin.
9. Building a DBMS in Scala or how types can turn a SQL interpreter into a SQL compiler. ScalaDays, Berlin, 2014
10. Project Lancet: Surgical Precision JIT Compilers. ScalaDays, New York City, 2013
11. Delite: Domain Specific Languages for Big Data and Heterogeneous Parallelism. XLDB Europe Workshop, CERN, 2013
12. High-Level High-Performance Programming with Scala-Virtualized, LMS and Delite. ScalaDays, London, 2012
13. Fast Concatenation for Immutable Vectors. ScalaDays, London, 2012
14. Node.js? Done.scala! Implementing Scalable Async IO using Delimited Continuations. ScalaDays, Stanford University, 2011

Funding

Grants Awarded

1. HACCLE: High-Assurance Compositional Cryptography: Languages and Environments. PI: Milind Kulkarni, co-PIs: Tiark Rompf, Jeremiah Blocki, Aniket Kate, Benjamin Delaware, Roopsha Samanta. \$10,732,899. IARPA-BAA-1705 HECTOR 2019
2. FMitF: Track I: Symbolic Reasoning with Graph Networks. PIs: Tiark Rompf, Jennifer Neville, Bruno Ribeiro. \$750,000. NSF 2019
3. III: Small: In-memory Distributed Graph Data Management. PIs: Walid Aref, Tiark Rompf. \$499,000. NSF 2019
4. NSF Student Travel Grant for 2019 Midwest PL Summit (MWPLS) PIs: Milind Kulkarni, Tiark Rompf \$5,000. NSF 2019
5. Facebook Probability and Programming Research Award. PI: Tiark Rompf. \$67,390. Facebook 2019
6. VMware Systems Research Award. PI: Tiark Rompf. \$100,000. VMware 2018
7. HIRP Open Research Award. PI: Tiark Rompf. \$49,996. Huawei 2018
8. Formal Methods for Robust Machine Learning. PI: Jennifer Neville, co-PIs: Dan Goldwasser, Bruno Ribeiro, Tiark Rompf, Roopsha Samanta. \$265,000. Purdue Integrated Data Science Initiative 2018
9. Google Faculty Research Award. PI: Tiark Rompf. \$80,000. Google 2018
10. Purdue Major Scientific Equipment Award. PIs: Walid Aref, Jennifer Neville (I initiated the proposal but assistant profs were not eligible to serve as PIs.) \$268,000. Purdue Office of the Provost 2017
11. DOE Early Career Award: Program Generators for Exascale and Beyond. PI: Tiark Rompf. \$749,055. DOE 2017
12. Google Faculty Research Award. PI: Tiark Rompf. \$84,787. Google 2017
13. CAREER: Generative Programming and DSLs for Safe Performance Critical Systems. PI: Tiark Rompf. \$517,193. NSF 2016
14. SHF: Medium: Collaborative Research: From Volume to Velocity: Big Data Analytics in Near-Realtime. PIs: Tiark Rompf, Kunle Olukotun, Christopher Ré (Purdue/Stanford). \$1,000,000 (Purdue: \$333,840). NSF 2016
15. Abstraction Without Regret for Program Verification. PI: Tiark Rompf. \$16,714. Purdue Research Foundation 2015

Teaching

Classes Taught

- CS590 Deep Learning for Symbolic Reasoning fall 2018
- CS502 Compilers fall 2019, spring 2019, fall 2016
- CS352 Compilers spring 2020, spring 2018, fall 2017, fall 2015
- CS565 Programming Languages spring 2016, spring 2015
- CS590 Metaprogramming and Program Generation fall 2014

Department Service

- Graduate Admissions 2014, 2015, 2019
- Graduate Committee 2016, 2017, 2018
- GoBoiler Internships 2018, 2019
- Faculty Hiring (Systems) 2019

Current Post-Doctoral Scholars

- Yuyan Bao
- Oliver Bračevac

Current and Past PhD Advisees

- Leo Osvald (graduated Spring 2018, now at Facebook)
Lightweight Programming Abstractions for Increased Safety and Performance
- Ruby Tahboub (graduated Spring 2019, now Visiting Assistant Prof at Purdue)
Architecting Query Compilers for Diverse Workloads
- Grégory Essertel (graduated Fall 2019, now at Strateos)
Improving Performance of Data-Centric Systems through Fine-Grained Code Generation
- Fei Wang
- James Decker
- Guannan Wei
- Xilun Wu

Current and Past MS Advisees

- Nandita Viswanath (graduated 2019, Bloomberg)
- Prahlad Joshi (graduated 2015, Facebook)
- Roman Tsegelskyi (graduated 2015, Microsoft)

PhD Defense Committees

- Wen-Chuan Lee (Advisor: Xiangyu Zhang) 2019-12-12
- Laith Sakka (Advisor: Milind Kulkarni) 2019-11-26
- Shin-Yeh Tsai (Advisor: Yiyang Zhang) 2019-07-16
- Gowtham Kaki (Advisor: Suresh Jagannathan) 2019-07-12
- Alen Stojanov (ETH, advisor: Markus Püschel) 2019-05-27
- Amgad M. Madkour (Advisor: Walid Aref) 2018-11-29
- Mohamed S. Hassan (Advisor: Walid Aref) 2018-07-23
- Lianjie Cao (Advisor: Sonia Fahmy) 2018-04-27
- Georg Ofenbeck (ETH, advisor: Markus Püschel) 2017-04-04
- Keith G. Chapman (Advisor: Tony Hosking) 2016-12-02
- He Zhu (Advisor: Suresh Jagannathan) 2016-07-11
- Kevin J. Brown (Stanford, advisor: Kunle Olukotun) 2016-05-31

Supervised Undergraduate (and MS) Research

- Supun Abeysinghe (PhD) 2019
- Abhishek Sharma 2019
- Akhil Sai Bandarupalli (MS) 2019
- Zhanfu Yang (MS) 2019
- Zequan Wu 2019
- Vritant Bhardwaj 2018
- Daniel F. Zheng 2018
- William G. Pierce 2018
- Adam F. Johnston 2018
- Lilliam I. Gonzales Alayon (MS) 2015
- Rohan Barman 2015
- Di Liu 2015
- Cameron Kachur 2015

External Research Interns

- Thaïs Baudon, ENS Rennes 2019
- Yuanjing Shi, UIUC (MS) 2019
- Lala Shahbandayeva, ADA University Azerbaijan 2019
- Sara Seidl, Univ. of Salzburg (MS) 2019
- Christian Mösl, Univ. of Salzburg 2019
- Anxhelo Xhebraj, Sapienza Univ. of Rome (MS) 2019
- Youyou Cong, Ochanomizu University (PhD) 2018
- Sreekar Garlapati, IIT-Bombay 2018
