

Science Prestige Lecture

What is Information?

Professor Wojciech Szpankowski

Department of Computer Science

Purdue University, West Lafayette, Indiana, USA

Wednesday 10 May 2006

E9 Lecture theatre

1.10 - 2.00pm

Information permeates every corner of our lives and shapes our universe. It can be manifested in various forms: business information is measured in dollars; chemical information is contained in shapes of molecules; biological information stored and processed in our cells prolongs life. So what is information...?
