

# CS Minor Application

A student wishing to declare a CS minor should work together with his/her assigned academic advisor to create a plan of study for completion of the minor that takes into account the need to take CS courses in their off-peak semesters and balancing the student's CS courses with his/her major requirements. Completing the CS minor should not delay conferral of the student's degree.

CS 18000, 25000, and 25100 will be open to non-CS majors during Spring semesters.

CS 18200, 24000, and 25200 will be open to non-CS majors in the Fall semesters.

A *very small* number of seats in these classes *may* be available to CS minors in the peak semesters for those courses only after all CS majors are registered. Students would add via Form 23 and instructor signature during the second week of classes. **Space is not guaranteed and should not be anticipated.**

Access to 300 level classes will be issued via override to students who have not yet completed the minor.

This plan of study must be submitted for approval to the CS Advising Office, LWSN 1123. The office is open Monday through Friday, 8-12 and 1-5. Questions may be addressed to a CS academic advisor during posted non-major walk-in hours. If approved, the minor will be added to the students' record. **Other Academic advisors on campus are not authorized to enter a CS minor.** Minors entered by anyone other than CS department advising staff will be removed by the CS schedule deputy.
